Product Improvement Solution

A Tri-state Construcion Company had been attempting to source a 'breathable' blue t-shirt with hi-visibility tape and their company logo screen printed on both sides. They had been looking for a source for nearly 2 years.

Afox reached out and beyond local suppliers for the best blue t-shirt that did not make employees feel like they were wearing a 'garbage bag' during the hot summer months.

AFOX offered 2 sample shirts for a wear test, one of them delivered perefect results and were below other providers pricing. The procurement and direct manager are thrilled to finally get this project off of their desk! Also, this purchase goes directly to SBE, WBE spend budget.
